Overview /
Campfires take place on the specially prepared site. Fires are kept small and contained within a fire pit so as to remain easily manageable yet still fun.
Ratios 2:20 minimum and 4:100 Maximum

STEP ONE	STEP TWO	STEP THREE	STEP FOUR	STEP FIVE
List significant hazards here:	List groups of people who are at risk from the hazards you have identified:	List the Control Measures for the identified risks:	Identify any residual risk remaining after the control measures have been put in place:	Identify any benefits that may result from exposure to the perceived and residual risk for participants:
Fire (Burns)	Instructors Guests	Safety equipment. Safety procedure. Session guide. Group leader responsibilities. Equipment safety checks. In House Training. Emergency procedures. First aider always present. First aid & near miss forms. Bucket of water always available on session. Procedure in place to safely escort group from fire area at end of session.	Strong wind or unpredictable gust blowing the fire in different directions.	Being allowed within certain proximity of a fire can heighten awareness and senses, as society associates fire as dangerous.
Slips, trips and falls.	Instructors Guests	Group is always under supervision of Instructors and/or Group Leaders	Potential of guests not adhering to the safety brief.
